1990 Subject Index

This index describes the material that appeared in Volume 86, Numbers 1 through 12, of* Chemical Engineering Progress, *which is published by the American Institute of Chemical Engineers.

A

ABB Process Automation distributed control equipment, Oct. 63
Accidents, preventing pipe failures due to human errors, Nov. 67
Acid rain
  controls near large-scale testing, Sept. 11
  and the Clean Air Act, May 25
Adhesion, substrate surface chemistry of, Apr. 78
Adiabatic calorimeters, Jan. 13
Adsorption
  molecular, in micropores, Aug. 43
  physical, for immobilizing enzymes, July 81
Aerospace industry, hazardous waste reduction in, Apr. 51
Agitators and turbines, Feb. 61
AIChE, energy policy encouraged by, Nov. 17
Air
  bags installed by more U.S. than Japanese automakers, Feb. 11
  foil drier, Sept. 30
  pollution taxed by France, Sept. 16
  toxics guidance document, July 92
Airlift loop fermenters, Dec. 32
Alternate fuels workshop, Feb. 15
The American Synthetic Rubber Research Program, book review, May 80
Amine reboiler, RODbaffle, July 48
Ammonia release, aerosol modeling of, Oct. 71
Amoco and Nippon Petrochemical in joint venture to produce nonwoven fabric, Nov. 14
Analyzer calibration, Dec. 58
ANSYS program, coking equipment analysis using, Aug. 27
Anthracite Institue formed at Penn State, Nov. 14
Apple desktop media, Mar. 74
Aquifer pollution, May 52
Arcochem to restart cyclohexane plant, June 8
Artificial intelligence, basic concepts, Apr. 34
Asbestos banned by EPA, Mar. 14
ASPEN PLUS, reactive distillation using, Aug. 45
Astro Industries acquired by Borden, Oct. 14
Atmospheres, controlled and modified, in food packaging and storage, June 25
Atomizer pressure, optimum, June 33
Authors' guide to *Chemical Engineering Progress*, Jan. 86
Automakers, U.S., lead Japanese in air bags, Feb. 11
Automation software, Oct. 19

B

Bacteria
  for mining cobalt, July 92
  for removing sulfur from coal, Aug. 86
Bailey Controls distributed control equipment, Oct. 63
Ball milling efficiency improved, Mar. 73
BASF to build biotechnology center, Apr. 8
Batch
  catalytic gas/liquid reactors, Mar. 50
  process management, June 66
Bearing, pump, design and lubrication, Sept. 46
Benzene, air emission standards for issued by EPA, June 14
Bethlehem Steel installs pollution control system, Jan. 8
Biocatalysts, immobilized, July 81
Bioleaching aids copper ore recovery, Feb. 72
Biological reaction engineering, Apr. 62
Biomass conversion process may be commercialized abroad, June 88
Bioparenteral production, Dec. 26
Biopharmaceuticals, manufacturing practices, Dec. 26
Bioprocess engineering, Apr. 62
Bioprocess wastes, continuous sterilization of, Dec. 44
Bioremediation route to cleaning groundwater, May 52
Biotechnology
  center to be built by BASF, Apr. 8
  directory database available, Feb. 73
  genetically engineered microbes for pollution control, May 46
  pilot plant opened by Penn State, Sept. 9
Bisio, Attilio, role as *Chemical Engineering Progress* Editor lauded, Oct. 7
Bodman, Samuel, May 74
Boiler inspection, preparing for, Sept. 60
Boilers, computer-controlled system for on-line monitoring of performance, Jan. 60
Boiling point rise in evaporators and crystallizers, May 10
Book reviews
  The American Synthetic Research Program, May 80
  Technology and the American Economic Transition: Choices for the Future, May 80
Borden
  Astro Industries acquired by, Oct. 14
  Chemical's methanol profit cut by high cost of natural gas, June 8
Bottles
  ketchup, to be recycled, July 10
  Rutgers process separates, July 11
Bravo-Rocha-Fair pressure drop model, Jan. 19
Breithaupt, Erich W., to be confirmed as R&D chief at EPA, Apr. 11
Bristol Babcock distributed control equipment, Oct. 68
Bubble or froth flow in pipes, Nov. 60

C

Cables, electric heat tracing, Oct. 45
Cabot Corp., profile of Chairman Samuel Cabot, May 74
Calcium
  carbonate production triples at Canadian plant, Nov. 14
  demineralization of human bone in microgravity investigated, Sept. 10
California air emission regulation, Mar. 14
Calorimetry, heat flow, for preventing runaway reactions, Jan. 13
Canning process keeps vegetables crisp, Jan. 70
Carbonate, molten, fuel cell project, Sept. 12
Carbon balance, waste minimization via, Nov. 77
Carrier-binding method of enzyme immobilization, July 81
CAS Registry records 10 millionth substance, May 83
Catalyst
  for gasoline production, Nov. 11
  pellet design, Feb. 32
Catalysts
  powdered, Sept. 71
  synthetic, development of, Sept. 71
Catalytic
  cracking process, Feb. 23
  reaction system, optimal fixed bed, Feb. 32
CD-ROM, European standards on, Aug. 86
Center for Chemical Plant Safety sets standard for industrial safety, Mar. 60
Center for Research Planning, June 89
Central limit theorem, Nov. 19
Ceramic
  fibers deal signed by Hercules and Rhone-Poulenc, June 8
  technique for manufacturing superconductors, Apr. 17
  toughness increased, July 93
Chelation technique for immobilizing enzymes, July 81
Chem-Dyne Corp., aquifer polluter, May 52
Chemical
  diversion law meeting obstacles, May 8
  engineering frontiers and 1992, Mar. 55
  exports from U.K. expected to rise, May 8
  hazard scenarios, modeling of, Oct. 71
  heterogeneous reactions, Dec. 17
  industry underutilizes information technology, May 82
  prevents flowers from wilting, June 88
  reactions can be accelerated by ultrasound, June 88
  reactor, sun-powered, Sept. 15
  vapor deposition process for producing thin-film superconductors, Apr. 24
Chemical Engineering Progress
  Attilio Bisio lauded as Editor, Oct. 7
  evolution of, Sept. 5
  guide for authors, Jan. 86
Chemicals
  added to section 313 of Community Right-to-Know Act, Feb. 15
  hazardous
  EPA publishes rule on occupational exposure in laboratories, June 12
  safety management of, Sept. 16
ozone depleting, increased regulation of, Oct. 17
significant new use rules issued for several chemicals, June 14
specialty
  growth expected in 1990, Aug. 11
  U.S. may produce, July 11
synthetic organic, Dec. 17
toxic, emissions rule from EPA expected, Nov. 17
Chemistry, substrate surface, of adhesion, Apr. 78
Chlorine
  dangers of spurs sodium chlorate expansion, July 10
  plant, Dec. 64
  release from storage tank, modeling of, Oct. 71
Chlorofluorocarbons
  hydrofluoric acid producers to benefit from phase-out of CFCs, June 8
  refrigeration system works with CFC substitute, May 9
  substitute, ICI to build U.S. plant for, Feb. 11
Clean Air Act, air toxics legislation, Dec. 14
Coal
  anthracite, use of promoted by new institute, Nov. 14

1990 Subject Index

bacteria removes sulfur from, Aug. 86
burning, magnetohydrodynamics test to remove sulfur dioxide from, Jan. 70
expected to gain market share in Europe, Apr. 8
new initiative promotes its use as environmentally acceptable fuel, July 10
Coanada air flotation drier, Sept. 30
Coatings
condensation, Sept. 50
coreactive, Sept. 50
curling and cracking, Sept. 30
flow, visualization of, Sept. 24
formation of, Sept. 30
industry, partial value of, Sept. 19
inorganic, Sept. 50
peroxide curing of, Sept. 50
selection, Sept. 50
types and uses of, Sept. 19
Cobalt, bacteria for mining of, July 92
Cogeneration equipment in demand, Apr. 9
Coking
equipment, analysis of using ANSYS program, Aug. 27
rate and performance of fired heaters, statistical determination of, Aug. 14
Combustion in fluidized beds, July 31
Composites growth slowed by construction lull, May 8
Computerized databases to be distributed by TDS Numerica, Aug. 86
Computer security technology licensed by Martin Marietta, May 82
Concrete corrosion, Sept. 50
Condensers, RODbaffle, July 48
Congressional Caucus on Advanced Materials formed, Jan. 11
Constant-watt cables for electric heat tracing, Oct. 45
Container-labeling program, in-plant, Mar. 33
Containers for nuclear waste disposal, July 68
Contractor safety training, Feb. 73
Control
distributed
equipment for, Oct. 61
for pilot plants, Sept. 55
system, gifted to Louisiana State Univ., Oct. 15
instrumentation, Oct. 24
scheme for distillation columns, Feb. 16
statistical process, Nov. 19, 28, 38
Controller
internal model control tuning for, Oct. 33
tuning without math, June 89
Cooling towers, modernization of, Sept. 37
Copper ore recovery aided by bioleaching, Feb. 72
Coriolis mass flowmeters, materials for, Oct. 55
Corrosion
concrete, Sept. 50
metal, Sept. 50
in piping systems, Oct. 55
Cost factors for scaling up engineering equipment, Aug. 77
Countercurrent reactive distillation process, Feb. 46
Covalent binding of biocatalysts, July 81
Cross linking, enzyme immobilization technique, July 81
Crystallizers, impact of excess boiling point rise, May 10
Curling and cracking of coatings, Sept. 30
Cyclohexane plant to be restarted by Arcochem, June 8
Cyclones, vertical and horizontal, July 31

D

Data
acquisition, in pilot plants, Sept. 55
collection software for the Macintosh, Aug. 61
Degreasing of metals, source of pollution in aerospace industry, Apr. 51
Denmark, environmental protection in, May 30
Density measurement theory, Oct. 58
Denver Brown Cloud Study, May 61
Dept. of Energy
Office of Technology Development established by, June 11
solids flow research, Nov. 15
waste management program, Dec. 14
Design
cost factors for scaling up engineering equipment, Aug. 77
Institute for Emergency Relief Systems program, Mar. 45
Desktop publishing equipment from Apple Computer, Mar. 74
DiAD-Kit/BOILER system for monitoring steam boilers, Jan. 60
Diagrams
Fishbone, Nov. 28
Pareto, Nov. 28
Differential scanning calorimetry, Jan. 13
Diffusion, selective, for retaining flavor and aroma in food, June 33
Distillation
columns
containing structured packing, Jan. 19
control scheme for, Feb. 16
debottlenecking of via gamma scan evaluation, Mar. 37
heat pumps for, June 60
internal model control tuning rules for, Oct. 33
processes, spreadsheet software for, Dec. 53
reactive, for methyl acetate, Feb. 40
reactive, using ASPEN PLUS, Aug. 45
three-phase, in packed columns, Nov. 80
Distributed control
for pilot plants, Sept. 55
system gifted to Louisiana State Univ., Oct. 15
Distributions
normal and nonnormal, in statistical process control, Nov. 19
probability, Nov. 28
DNA, recombinant, National Institutes of Health Guidelines, Dec. 44
DORIS program for reactor design, Aug. 88
Dow Chemical
earnings down, Apr. 9
in joint venture to service plastics compounders, Mar. 10
women lead in patents, Nov. 12
Driers, design evolution, Sept. 30
Drinking water, health advisories, Sept. 15
Drug, oral, quality specifications for, Dec. 17
Du Pont
complete first hydrofluorocarbon plant, Nov.16
to expand nylon capacity, May 9
to expand nylon polymer capacity, Jan. 9
expects recycled resins to be competitive, Mar. 10
produces high-strength polyamide fiber, June 8
to restructure polymers business, Apr. 8
Safety Services Resource Guide, Mar. 72
Dust
collection systems for abrasive solids, Dec. 49
explosions, Mar. 24

E

Eastman expands PET production in U.K., Aug. 10
Economics, heater decoking, Aug. 14
Education
bill for engineering, science, and math scholarships, Mar. 13
faculty-student interaction promotes interest in science, Mar. 7
Elastomer businesses of Exxon and Monsanto to merge, Aug. 10
Electric
energy, outlook for, July 64
utilities lag in emissions control, Oct. 14
Electrical consumption, ways of reducing, Oct. 13
Electricity, solar concentrator for producing, Nov. 13
Electrochemical membrane gas separation, Jan. 41
Electrodialysis membrane separation, Apr. 62
Electrophoresis separation, Apr. 62
Emergency procedures guided by expert system, Sept. 12
Employee training key to improving productivity, May 83
Emulsion preparation and stability, June 54
Energy
electric, outlook for, July 64
and the environment, July 64
National Strategy, Aug. 7, June 11
nuclear
outlook for, July 64
radwaste disposal plans, July 64
policy encouraged by AIChE, Nov. 17
solar, decontamination of water via, Mar. 73
solids flow research at DOE, Nov. 15
World Council, July 66
Entrainment flooding, prediction of on sieve and valve trays, Sept. 63
Environmental protection
at Tufts Univ., May 38
in Europe and Japan, May 30
solution program at Univ. of Texas, May 83
taxes, July 13
Enzymes and cells, immobilization of, July 81
EPA
Advisory Council on Technology Transfer to meet, Jan. 11
air emission standards for benzene issued, June 14
asbestos banned, Mar. 14
cabinet department may be in offing, Mar. 13
EBDC fungicide banned by, Mar. 11
effluent guidelines, Dec. 15
hazardous chemicals thresholds finalized, Sept. 16
hazardous waste program of North Carolina upheld, Aug. 21
health effects of motor vehicle fuels being reviewed by, Mar. 13
health issues receive too much emphasis by agency, according to report, Aug. 13
increases number of toxic substances covered by RCRA, June 12
landfill standards to be issued this fall, Aug. 13
PCB, test of in situ disposal approved, Nov. 16
rule making, negotiated, Nov. 17
rule published on exposure to hazardous chemicals in laboratories, June 12
solid waste regulated by RCRA may be redefined, Sept. 15
Supreme Court upholds agency's right to determine "best available" water pollution control technology, June 9
toxic chemicals, peak emissions rule expected, Nov. 17
toxics control regulations, July 13
trash separation for recycling a burden to municipalities, Nov. 18
and waste minimization, Dec. 14
Equipment, scaling up, design costs factors for, Aug. 77
Error, human, and pipe failures, Nov. 67
Europe's removal of trade barriers in 1992, Mar. 55
European pharmaceutical companies to pool efforts, Jan. 9
European standards on CD-ROM, Aug. 86
Evaporators, impact of excess boiling point rise on, May 10
Excel spreadsheet, review of, May 86
Exchanger design standard reviewed, Mar. 16
Expert systems
development of, Apr. 34
emergency procedures guided by, Sept. 12
Explosives extend weldment fatigue life, June 88
Exxon
and Valvoline to use recycled HDPE containers, Jan. 9
and Monsanto to merge elastomer businesses, Aug. 10
and Shell joint polyethylene venture in France, May 9

F

Fabrics
for liquid solid separation, comparing, Nov. 45
nonwoven, Amoco and Nippon Petrochemical in joint venture to produce, Nov. 14
Fermenation products, Dec. 17
Fermenter
airlift loop, Dec. 32
gas dispersion performance in, Feb. 61
RODbaffle, July 48
Fiberglass pipe handbook, Apr. 78
Fibers
ceramic, Hercules and Rhone-Poulenc in joint venture, June 9
optical, Feb. 47
Film, training, on sulfuric and hydrochloric acid wins award, Sept. 11
Filter, fabric materials, Nov. 45
Filtration
equipment for semiconductor manufacturers, Mar. 72
processes and equipment, Nov. 45
Finite element program, ANSYS, for analyzing coking equipment, Aug. 27
Fired heaters, statistical determination of performance and coking rate, Aug. 14
Fischer & Porter distributed control equipment, Oct. 68
Fishbone diagrams, Nov. 28
Fisher Controls distributed control equipment, Oct. 68
Flame speeds of dust explosions, Mar. 24
Flavor and aroma in food, retention via selective diffusion, June 33
Floating-loop impingement drier, Sept. 30
Flooding, entrainment, prediction of on sieve and valve trays, Sept. 63
Flotation separation, Apr. 62
Flow
field inside an orifice flowmeter, July 75
numerical simulation of in a hydraulic turbine, Aug. 35
two-phase, in process piping, Nov. 60
Flowers prevented from wilting by chemical, June 88
Flowmeter
Coriolis mass, materials for, Oct. 55
flow field inside, July 75
space shuttle efficiency may be boosted by, Oct 11
Fluid catalytic cracking, review of history, Sept. 70

1990 Subject Index

Fluid flow, hydraulic grade lines, Oct. 50
Fluidized bed
  combustion in, July 31
  roasting, continuous, June 40
Fluids, heat transfer, Nov. 51
Fluorination processing, food preservation technology, June 25
Fluoropolymers protect optical fibers, May 82
Food
  emulsifiers, qualities of, June 54
  microwave processing of, June 47
  packaging and storage, controlled and modified atmospheres in, June 25
  sensory evaluation of, June 40
Formosa weighing $7 billion investment in China, Aug. 10
Fouling rate of heaters, factors influencing, Aug. 14
Foxboro distributed control equipment, Oct. 68
Fractionation column condenser, hydraulic grade lines in, Oct. 50
France taxes air polluters, Sept. 16
Froth or bubble flow in pipes, Nov. 60
Fuel
  additives panel formed, Nov. 12
  cell project, molten carbonate, Sept.12
Fuels
  alternate, workshop on, Feb. 15
  EPA reviewing health effects of, Mar. 13
Fugitive emission control in packed valves, Aug. 70
Full Impact spreadshe ., review of, May 86
Fungicide
  EBDC banned by EPA, Mar. 11
  Folicure costs cut, Apr. 8

G

Gamma scan evaluation for distillation column debottlenecking, Mar. 37
Gas
  dispersion performance in fermenter operation, Feb. 61
  emissions index, greenhouse, July 58
  inert, and relief vents in mitigating dust explosions, Mar. 23
  liquid reactors, Mar. 50
  liquified toxic, handling of, Dec. 64
Gasket safety standards, July 92
Genetic engineering and pollution control, May 46
Geological disposal of nuclear waste, July 68
Germany, environmental protection in, May 30
Goodrich earnings down due to low PVC prices, Apr. 9
Graphics for simulation studies, Aug. 23
Greenhouse gas emissions index, July 58

H

Halon use restrictions recommended, Jan. 70
Hazard
  chemical scenarios, modeling, Oct. 71
  Communication Standard, comments on sought by OSHA, July 13
Hazardous materials
  containers, labeling system for, Mar. 33
  and regulatory requirements, May 17
  transportation law may be tightened, Jan. 9
Hazardous waste
  characteristics, May 17
  four natural laws of, May 7
  import of upheld by court, Oct. 17
  incineration systems for, July 19
  management policies overseas, May 30
  reduction in aerospace industry, Apr. 51
Heat and mass transfer
  in microwave processing of food, June 47
  modeling of in optical waveguide manufacture, Feb. 47
Heaters, fired, statistical determination of performance and coking rate, Aug. 14
Heat exchanger, RODbaffle, July 48
Heat flow calorimetry for preventing runaway reactions, Jan. 13
Heat pumps for distillation columns, June 60
Heat tracing guidelines, Oct. 45
Heat transfer
  coefficient for airlift loop fermenter, Dec. 32
  system performance, Nov. 51
Heterogeneous chemical reactions, Dec. 17
High altitude simulation chamber at Battelle, Apr. 78
Himont licensed by Sandoz to produce plastics stabilizer, Apr. 9
Hoechst
  growth during 1990 may slow, July 10
  polyphenylene sulfide plant in planning stage, Nov. 16
Honeywell distributed contro¹ quipment, Oct. 68
Hydraulic
  grade lines, plotting of, Oct. 50
  turbine, numerical simulation of flow in, Aug. 35
Hydrofluoric acid
  cooler, RODbaffle, July 48
  producters to benefit from CFC phase-out, June 8
Hydrofluorocarbon plant completed by Du Pont, Nov. 16
Hydrofoil agitators, Feb. 61
Hydrotreating petroleum cuts, Feb. 23

I

ICI
  Australia gears up for tough year, Mar. 10
  paint subsidiary and Soviets in joint venture, Jan. 8
Ignition sources of dust explosions, Mar. 23
Incineration
  option for waste disposal, Apr. 51
  rotary systems for solid hazardous wastes, July 19
India to expand olefins capacity, Jan. 8
Indonesia to add eight chemical plants, Aug. 10
Induction heating newsletter, July 93
Information
  technology underutilized in chemical industry, May 82
  transfer project, Apr. 11
Innovation, four phases of, July 7
Insect repellant in nearly extinct plant, June 89
Instrumentation
  analyzer calibration, Dec. 58
  control, Oct. 24
  for hazardous-area plants, Sept. 55
  Louisiana State Univ. gets distributed control system, Oct. 15
Insurance for underground tanks, May 15
Integrated optimization of processes, Oct. 24
Intelligent Materials and Structures Journal to be published, May 82
Intermig agitators, Feb. 61
Internal model control tuning for controllers, Oct. 33
Ionic binding to immobilize enzymes, July 81
Ion thermochemistry database available, June 89

J

Japan, environmental protection in, May 30
Jet spraying for cleaning chemical reactors, Oct. 15
Johnson Yokogawa distributed control equipment, Oct. 69
Joint ventures
  Amoco and Nippon Petrochemical to produce nonwoven fibers, Nov. 14
  Dow Chemical to service plastics compounders with M. A. Hanna, Mar. 10
  GE Plastics and Huntsman form polystyrene unit, Jan. 10
  ICI and Soviet Union to produce paint, Jan. 8
  National Cooperative Research Act would limit antitrust liability, Feb. 15
  Sandis seek refining partners, Aug. 10
  Union Carbine and Brazilian firm to produce butanol and hexanol, Jan. 8
Josephson effect, Apr. 17

KL

Kaolin processing, large-scale superconducting separator for, Jan. 36
Kiln, rotary, incinerators, July 19
Kolmogorov-Smirnov test, Nov. 28
Kurtosis, Nov. 19
Labeling system for hazardous-materials containers, in-plant, Mar. 33
Laboratories, national, and technology transfer, Dec. 73
Laboratory
  automation software for the Macintosh, Aug. 61
  exposure to hazardous chemicals, new EPA rule, June 12
LABTECH NOTEBOOK for the Macintosh, Aug. 61
LabVIEW for the Macintosh, Aug. 61
Landfill
  standards being finalized by EPA, Apr. 11
  standards to be issued by EPA in fall, Aug. 13
Lead, study to reduce risks of, Aug. 13
Leeds & Northrup distributed control equipment, Oct. 69
Legislation
  for air pollution control, Oct. 47
  chemical diversion law meets obstacles, May 8
  chemicals added to section 313 of Community Right-to-Know Act, Feb. 15
  Clean Air Act
    and acid rain, May 25
    and air toxics, Dec. 14
  Comprehensive Environmental Response, Compensation, and Liability Act, May 17
  law on transporting hazardous materials may be tightened, Jan. 9
  materials processing, Dec. 14
  National Cooperative Research Act would limit antitrust liability of joint ventures, Feb. 15
  Occupational Safety and Health Act, May 17
  process safety, Mar. 23
  product liability laws found not erratic or excessive, Mar. 11
  RCRA reauthorization proposals, Mar. 13
  Resource Conservation and Recovery Act, May 17
  sham recycling amendments to RCRA, May 15
  Superfund
    Amendments and Reauthorization Act, May 17
    reauthorization not expected until 102nd Congress, Aug. 13
  test methods for new stationary VOC sources, Aug. 21
  Toxic Substances Control Act, May 17
Lidars, eye-safe, Feb. 72
Liners for secondary containment of underground tanks, June 78
Liquid-liquid distributors, Nov. 80
Liquid-solid separation, comparing fabrics for, Nov. 45
Liquid distribution for optimum packing performance, Jan. 30
Litigation
  acid rain standards ordered, Aug. 21
  land ban rule, suit filed against, Aug. 21

M

Machine vision system, Aug. 86
Magnetic separators, high gradient, Jan. 36
Magnetohydrodynamics tests remove sulfur dioxide from burning coal, Jan. 70
Maillard flavor-generating reaction in food, June 40
Malaysian plastics industry discouraging foreign investment, June 8
Manufacturing practices for biopharmaceuticals production, Dec. 26
Mass flow measurement theory, Oct. 58
Mass spectrometers used for detecting leaks and spills, May 40
Materials
  Advanced Congressional Caucus on, Jan. 11
  ceramics toughness increased, July 93
  composites growth slowed by construction lull, May 8
  for Coriolis mass flowmeters, Oct. 55
  Du Pont produces high-strength polyamide fiber, June 8
  dust collection systems for abrasive solids, Dec. 49
  for fabric filters, Nov. 45
  intelligent processing of, Apr. 79
  journal devoted to material systems and structures, May 82
  processing legislation introduced, Dec. 14
  requirement planning, June 66
  safety guide to hazardous industrial substances, May 83
  science and engineering study, Apr. 11
McDonald's to recycle polystyrene, Jan. 9
Measurement, precision, proposals sought by NIST, Nov. 13
Measurex distributed control equipment, Oct. 69
Media, Apple desktop, Mar. 74
Membrane
  chloralkali plant, modular construction of, Oct. 76
  electrochemical, gas separation, Jan. 41
  gas separation studies, Apr. 78
Meters, orifice, optimum flow conditioning for, Feb. 72
Methane conversion to liquid hydrocarbon, fuel, processes for, Apr. 42
Methanol
  demand on rise, Feb. 11
  profit of Borden Chemical cut by high cost of natural gas, June 8
Methyl
  acetate via reactive distillation, Feb. 40
  chloroform may be phased out, Apr. 8

1990 SUBJECT INDEX

Microbes for pollution control, May 46
Microengineering lab seeks sponsors, Feb. 73
Microorganisms, introduction into environment to be monitored by government, Oct. 16
Micropores, molecular adsorption in, Aug. 42
Microwave processing of food, June 47
Milling, ball, efficiency improved, Mar. 73
Mixing in an airlift fermenter, Dec. 32
Mobay cuts fungicide costs, Apr. 8
Modeling
  coking and fouling rates, Aug. 14
  of complex chemical hazard scenarios, Oct. 71
  finite state, Oct. 19
  process, outlook for, Oct. 42
Models
  aquifer, May 52
  kinetic, for reactor design, Feb. 32
  of optical waveguide manufacturing process, Feb. 47
  pressure drop, for irrigated packed beds, Jan. 19
  of stresses in thin films, Apr. 28
Modular construction of plants, Oct. 76
Molecular adsorption in micropores, Aug. 42
Molten carbonate fuel cell project, Sept. 12
Monsanto
  and Exxon to merge elastomer business, Aug. 10
  in resins joint venture with S. Korean firm, May 9
Moore Products distributed control equipment, Oct. 69

N

NASA selects Albert Sacco as candidate for space shuttle mission, Oct. 11
National Acid Precipitation Assessment Program, May 25
National Critical Technologies Panel formed, Aug. 13
National Energy Strategy
  elements of, Aug. 7
  report issued, June 11
National Institute of Standards and Technology
  hearing on international standards to be held, Jan. 11
  John W. Lyons nominated as director, Mar. 13
  proposals sought for measurement grants, Nov. 13
National Institutes of Health, recombinant DNA guidelines, Dec. 44
National laboratories and technology transfer, Dec. 73
Natural gas
  high cost cuts methanol profits of Borden Chemical, June 8
  precheat technology, July 92
  slant well drilling, July 92
Nested designs in process monitoring, Apr. 12
The Netherlands, environmental protection in, May 30
Neural nets, introduction to, Aug. 55
NiCrMo alloys for Coriolis mass flowmeters, Oct. 55
Nippon Petrochemical and Amoco in joint venture to produce nonwoven fabric, Nov. 14
Nitrogen plant opens in South Carolina, Feb. 10
Nozzle, valve, for water injection, Dec. 38
Nuclear energy
  outlook for, July 64
  radwaste disposal plans, July 68
Numerical simulation of flow in a hydraulic turbine, Aug. 35
Nylon
  capacity to be expanded by Du Pont, May 9
  polymer capacity to be expanded by Du Pont, Jan. 9

O

Occidental to upgrade Texas vinyls plant, Aug. 10
Office of Technology Development established by Dept. of Energy, June 11
Oil
  as energy resource, to remain dominant, July 64
  recovery, thermal enhanced, Jan. 47
  reservoir geology, Jan. 47
Olefins capacity to be expanded by India, Jan. 8
Optical fibers protected with fluoropolymers, May 82
Optical waveguide manufacture, Feb. 47
Oral drug, quality specifications, Dec. 17
OSHA
  comments sought on Hazard Communication Standard, July 13
  hearings on employee exposure to toxic substances, May 15
  levies record fine for Hazard Communication Standard violation, Mar. 14
Oxidative coupling process for converting methane to liquid hydrocarbon fuel, Apr. 42
Oxygen scavengers in food preservation, June 25
Oxyhydrochlorination process for converting methane to liquid hydrocarbon fuel, Apr. 42
Ozone
  depleting chemicals come under greater supervision, Oct. 17
  layer could be hurt by supersonic planes, Apr. 78
  in water purification process, Dec. 69

P

Packaging, role of plastics in, Oct. 12
Packing
  graphite, Aug. 70
  liquid distribution for optimum performance, Jan. 30
  preformed, Aug. 70
  structured, in distillation columns, ' 'm. 19
Paint, source of pollution in aerospace industry, Apr. 51
Pareto diagrams, Nov. 28
Partial oxidation process for converting methane to liquid hydrocarbon fuel, Apr. 42
Patents, Dow Chemical women lead corporate America, Nov. 12
PCB, in situ disposal test approved by EPA, Nov. 16
Peanut roasting, chemical analysis of, June 40
Penn State
  Anthracite Institute formed at, Nov. 14
  opens pilot plant for biotechnology companies, Sept. 9
  radiation science and engineering science center formed at, Nov. 16
Peroxide curing of coatings, Sept. 50
PET production expanded in U.K. by Eastman, Aug. 10
Petrochemicals downtrend looms, Mar. 10
Petroleum Additives Panel formed by Chemical Manufacturers Association, Nov. 12
Pharmaceuticals
  European companies to pool efforts, Jan. 9
  industry, challenges in, Dec. 17
Phillips may market propane as motor fuel, May 8
Phosgene plant design, Dec. 64
Piping
  erosion-corrosion in, Nov. 60
  failures due to human error, preventing, Nov. 67
  fittings, velocity head factors of, Nov. 60
  systems, corrosion in, Oct. 55
  two-phase flow in, Nov. 60
Planning and scheduling systems, June 66
Plant operator training, SOCMA, Nov. 7, 11
Plants
  anhydrous ammonia, cooling tower upgrade, Sept. 37
  bioparenteral layouts, Dec. 26
  calcium carbonate output triples, Nov. 14
  for CFC substitute, Feb. 11
  chlorine, Dec. 64
  hazardous-area, instrumentation for, Sept. 55
  Indonesia to build eight chemical facilities, Aug. 10
  isopropanol-water, June 60
  modular construction of, Oct. 76
  nitrogen, opens in South Carolina, Feb. 10
  oxygen, will supply steel mini mill, Nov. 16
  petrochemical cooling tower upgrade, Sept. 37
  pharmaceutical, design and production, Dec. 17
  phosgene, Dec. 64
  pilot
    data acquisition, Sept. 55
    skid-mounted, June 15
  plastics recycling, planned for Philadelphia, Feb. 11
  polyphenylene sulfide, planned by Hoechst, Nov. 16
  polystyrene, in Malaysia to use Japanese technology, Feb. 10
  power, cost analysis for, Sept. 12
  propylene, gloomy forecast for, June 88
  quality control in, Dec. 58
  site selection, Nov. 38
  vinyls, Occidental to upgrade Texas facilities, Aug. 10
Plastics
  blow molding, European market for, Feb. 72
  engineering, S. Korea accused of dumping at low prices, Aug. 11
  industry in Malaysia discouraging foreign investment, June 8
  packaging, Oct. 12
  resin compounding expected to grow, May 9
pmPLUS/pmTALK for the Macintosh, Aug. 61
Poison releases, safe handling of presented in videotape, Oct. 14
Pollution control
  accountability in environmental decision making, June 5
  acid rain
    and the Clean Air Act, May 25
    controls near large-scale testing, Sept. 11
  air emission standards for benzene issued, June 14
  bioprocess wastes, continuous sterilization of, Dec. 44
  California air emission regulation, Mar. 14
  carbon balance for waste minimization, Nov. 77
  container-labeling program for hazardous wastes, Mar. 53
  Denver Brown Cloud Study, May 61
  effluent guideline of EPA, Dec. 15
  electric utilities lag in emissions control, Oct. 14
  EPA bans asbestos, Mar. 14
  Exxon and Valvoline to use recycled HDPE containers, Jan. 9
  France taxes air pollution, Sept. 16
  fuel additive cuts down carbon monoxide and hydrocarbons, Aug. 11
  and genetic engineering, May 46
  greenhouse gas emissions index, July 58
  Halon use restrictions, Jan. 70
  hazardous waste, four natural laws of, May 7
  hazardous waste reduction in aerospace industry, Apr. 51
  jail may await polluters, Sept. 9
  ketchup bottles to be recycled, July 10
  law on hazardous materials transport may be strengthened, Jan. 9
  liners for underground storage tanks, June 78
  McDonald's to recycle polystyrene, Jan. 9
  methyl chloroform may be phased out, Apr. 8
  microbes for, May 46
  PCB, test for in situ disposal approved by EPA, Nov. 16
  regulatory requirements, Oct. 47
  shipping cleared as major polluter, June 8
  soil vapor surveys, Sept. 41
  sulfur dioxide scrubbing technology, July 93
  Superfund and the Great Miami Aquifer, May 52
  Supreme Court upholds EPA's right to use "best available" water pollution control technology, June 9
  system installed at Bethlehem Steel, Jan. 8
  test methods for new stationary VOC sources, Aug. 21
  volatile organic compound emissions, reduction of, Sept. 15
  volatile organic emissions, reduction of, Oct. 47
  waste definitions under RCRA may change, Sept. 15
  water decontamination via solar energy, Mar. 73

Polyester with low styrene content introduced, Mar. 11
Polymers
  of Du Pont to be restructured, Apr. 8
  high-temperature, consumption of, Feb. 72
  microscopic holes may make it tougher, Oct. 12
  program to characterize microstructures of, Mar. 72

Polyphenylene sulfide plant planned by Hoechst, Nov. 16
Polystyrene
  McDonald's to recycle, Jan. 9
  plant in Malaysia to use Japanese technology, Feb. 10
  unit formed by GE Plastics and Huntsmann, Feb. 10

Polyurethanes, Sept. 50
Powdered catalysts, Sept. 71
Power plants
  costs analysis, Sept. 12
  modular construction of, Oct. 76
Preformed packings, Aug. 70
Pressure
  drop, calculation of in pipes, Nov. 60
  drop models for irrigated packed beds, Jan. 19
  relief systems, SAFIRE software for, July 14
  sensors selection, Nov. 70

Process
  modeling outlook for, Oct. 42
  monitoring, nested designs for, Apr. 12
  optimization, Oct. 24
Process capability index, Nov. 28
Product liability laws found not excessive or erratic, Mar. 11
Profile
  Arnold Stancell, Apr. 70
  Samuel Bodman, May 74

Propane
  Phillips may market as motor fuel, May 8
  propylene splitters, June 60
Properties of textile fibers for dry filtration, Nov. 45
Publishing, desktop, equipment from Apple Computer, Mar. 74
Pulp and Paper Office opened by EPRI, Nov. 15
Pulping process for paper, Oct. 13

Pumps
  drivers for, Sept. 46
  heat, for distillation columns, June 60
  seals for, Nov. 51
  test standards issued, July 93
  zero emission, Sept. 46
PVC prices drive down B.F. Goodrich earnings, Apr. 9

1990 Subject Index

QR

Quality control in plants, Dec. 58
Quattro Pro spreadsheet, review, May 87
Radiation science and engineering center formed at Penn State, Nov. 16
Radwaste plans in nine countries, July 68
RCRA
  correction action rules, Oct. 16
  reauthorization proposals, Mar. 13
  sham recycling amendments, May 15
  toxic substances covered by to be increased, Sept. 15
Reactive distillation using ASPEN PLUS, Aug. 45
Reactive Systems Screening Tool, Mar. 45
Reactors
  batch, catalytic gas/liquid, Mar. 50
  DORIS program for equipment design, Aug. 88
  heat flow calorimetry for preventing runaway reactions, Jan. 13
  jet spray cleaning of, Oct. 15
  scaleup methodology, Feb. 23
Recycling of trash a burden, municipalities claim, Nov. 18
Refinery industry outlook, Feb. 73
Refrigeration system works without CFCs, May 9
Regenerative catalytic reforming, Feb. 23
Regulatory requirements and hazardous materials, May 17
Relief vents and inert gases, mitigating dust explosions, Mar. 23
Research Planning, Center for, June 89
Resins
  plastic, rapid growth forecast for, May 9
  recycled, should prove competitive, Mar. 10
  sales rise due to export gains, Feb. 10
Respiration protection program, Aug. 86
Respirators, comments on use of sought by OSHA, May 15
Reverse osmosis membranes for water purification, Dec. 69
Rhone-Poulenc to supply hydrofluoric acid to U.S. from Mexican plant, Aug. 11
Risk
  communication, recommendation on being considered by Administrative Conference of U.S., June 11
  management, Mar. 21
Roaster, continuous, operation of, June 43
Roasting, continuous fluidized-bed, June 40
Robot plans own programs, Aug. 86
RODbaffle heat exchanger technology, July 48
Rosemount distributed control equipment, Oct. 69
Rotary kiln incinerators, July 19
Runaway decomposition, Feb. 53
Rushton turbines, Feb. 61

S

Sacco, Albert, selected as candidate for space shuttle mission, Oct. 11
Safety
  Center for Chemical Plant Safety, Mar. 60
  container-labeling program, Mar. 33
  contractor training, Feb. 73
  management of hazardous chemicals, Sept. 16
  pipe failures due to human error, preventing, Nov. 67
  policies at Dow Chemical, Mar. 21
  SAFIRE program for emergency pressure relief systems, July 14
  scaleup principles for assessing thermal runaway risks, Feb. 53
  Services Resource Guide, Du Pont's, Mar. 72
  standards, gasket, July 92
  UL standards for, Aug. 86
  in workplace, guide to, May 83
SAFiRE software for emergency pressure relief systems, July 14
Salaries of engineers and scientists increase, May 82
Sandoz licenses Himont to produce plastics stabilizer, Apr. 9
Scaleup
  of engineering equipment, design cost factors for, Aug. 77
  principles for assessing thermal runaways, Feb. 53
  reactor, Feb. 23
ScheduleAid process scheduling system, June 66
Scheduling and planning systems, June 66
Scholarships, congressional, for engineering, science, and mathematics, Mar. 13
Science and engineering, U.S. lags in, Aug. 86
Scrubber design factors, Dec. 64
Selective diffusion for retaining flavor and aroma in food, June 33
Semiconductors
  filtration equipment is manufacture of, Mar. 72
  surface chemistry of to be studied, Oct. 15
Sensor, pressure, selection of, Nov. 70
Sensory evaluation of foods, June 43
Separation, liquid-solid, comparing fabrics for, Nov. 45
Separations
  electrochemical membrane gas, Jan. 41
  membrane gas, studies on, Apr. 78
  Research Program at the Univ. of Texas, Austin, Jan. 22
Sham recycling amendments for Resource Conservation and Recovery Act, May 15
Shipping cleared as major polluter, June 8
Simulation
  of batch processes, June 66
  chamber, high-altitude, at Battelle, Apr. 78
  studies, graphics for, Aug. 23
Siphon flow and hydraulic grade lines, Oct. 50
Skid-mounted pilot plants, June 15
Smartware II spreadsheet, review of, May 86
SOCMA plant operator training program, Nov. 7, 11
Sodium chlorate expansion driven by search for chlorine alternative, July 10
Software
  for analyzing groundwater flow, Jan. 71
  ANSYS program for analyzing coking equipment, Aug. 27
  ASPEN PLUS for reactive distillation, Aug. 45
  automation, Oct. 19
  control, for pilot plant, June 15
  DORIS program for reactor design, Aug. 88
  for engineering and manufacturing, Mar. 72
  expert systems, Apr. 34
  lab automation programs for the Macintosh, Aug. 61
  numerical simulation of flow in a hydraulic turbine, Aug. 35
  for on-line monitoring of steam boilers, Jan. 60
  SAFIRE program for design of emergency pressure relief systems, July 14
  spreadsheet, for running batch distillation processes, Dec. 53
  spreadsheets, reviews of, May 85
Soil vapor surveys, Sept. 41
Solar concentrator, Nov. 13
Solar energy, decontamination of water via, Mar. 73
Solids flow research by Dept. of Energy, Nov. 15
Solution technique for manufacturing superconductors, Apr. 17
South Korea probing charges it is dumping engineering plastics, Aug. 11
Soviets and ICI in joint paint venture, Jan. 8
Space shuttle
  Albert Sacco selected as mission candidate, Oct. 11
  flowmeter may boost efficiency of, Oct. 11
Spray drying food liquids and retention of volatiles, June 33
Sprays, thermal, self-bonding, Mar. 72
Spreadsheet reviews, May 85
Stack emissions, on-line characterization of, May 40
Stancell, Arnold, Apr. 70
Standard Reference Data Directory updated, Apr. 79
Standards
  for ammonia mechanical refrigeration safety, recommendations sought, Jan. 71
  European, on CD-ROM, Aug. 86
  for industrial control equipment to be updated, Feb. 73
  international, NIST to hold hearings on, Jan. 11
  Organizations, International Directory of, to be updated, Mar. 72
  safety, UL, Aug. 86
  of Tubular Exchanger Manufacturers Association reviewed, Mar. 16
Statistical process control
  basics of, Nov. 28
  distributions, normal and nonnormal, Nov. 19
  Fishbone diagrams, Nov. 28
  limitations and potential of, Nov. 28
  Pareto diagrams, Nov. 28
  quality improvement via, Nov. 38
  terminology, Nov. 28
Steam
  boilers, computer-controlled system for on-line monitoring of performance, Jan. 60
  condenser, hydraulic grade lines in, Oct. 50
  conditioning valves, Dec. 38
  desuperheating, Dec. 38
  generators, rules issued for, Nov. 17
Steamflooding, Jan. 47
Sterilization, continuous, of bioprocess wastes, Dec. 44
Stichlmair-Bravo-Fair pressure drop model, Jan. 19
Storage, interim, of nuclear waste, July 68
Strecker degradation, flavor-generating reaction in food, June 40
Stresses in thin films for microelectronic applications, Apr. 28
Styrene production, June 60
Sugar carmelization, flavor-generating reaction in food, June 40
Sun-powered chemical reactor, Sept. 12
SuperCalc5 spreadsheet, review of, May 87
Superconductors
  filament development, July 92
  hot, Apr. 17
  plan for developed by federal government, Apr. 11
  separator for kaolin processing, Jan. 36
Superfund
  handbook, Feb. 72
  hazardous chemicals thresholds finalized by EPA, Sept. 16
  liability limited by appeals court, June 12
  reauthorization not expected until 102nd Congress, Aug. 13
  Right-To-Know law prompts uneven response, Sept. 10
  Section 313 data available on computer diskettes, Jan. 71
Supersonic planes could hurt ozone layer, Apr. 78
Supreme Court to hear Chicago Magnet Wire appeal, Mar. 15
Surface cleaning and finishing, source of pollution in aerospace industry, Apr. 51
Sweden, environmental protection in, May 30
Synthetic organic chemicals, Dec. 17

T

Tank
  cargo motor vehicles, regulations, Nov. 18
  cars, safety regulations being considered for, July 13
  reactors, neural nets for, Aug. 55
Tanks
  underground
    insurance of, May 15
    secondary containment of, June 78
Tantalum for Coriolis mass flowmeters, Oct. 55
Taxes, environmental, July 13
Technology
  advanced, program of National Institute of Standards and Technology, Sept. 16
  and the American Economic Transition: Choices for the Future, book review, May 80
  coating, Sept. 19
  critical, to be assessed by new White House panel, Aug. 13
  Development, Office of, established by Dept. of Energy, June 11
  manufacturing in U.S. to be studied, Oct. 17
  transfer and national laboratories, Dec. 73
  transfer programs termed inadequate, Feb. 15
Temperature
  effect of on corrosion rate, Oct. 55
  profiles of solid and liquid food materials, June 47
Texas Instruments distributed control equipment, Oct. 70
Textile fibers for dry filtration, properties of, Nov. 45
Thermal enhanced oil recovery, Jan. 47
Thermal runaway risks, scaleup principles for assessing, Feb. 53
Thermal sprays, self-bonding, Mar. 73
Thermomechanical pulping process for paper production, Oct. 13
Thin films
  stresses in, for microelectronic applications, Apr. 28
  structure examined via x-rays, Apr. 78
Three-phase distillation in packed columns, Nov. 80
Toshiba International distributed control equipment, Oct. 70
Toxic gas, liquified, handling of, Dec. 64
Toxics
  air, guidance document, July 92
  control, EPA implementation of, July 13
Toxic substances
  EPA increases number of regulated materials, June 12
  OSHA hearings on employee exposure to, June 12
Training
  basic skills taught by companies, Apr. 79
  contractor safety, Feb. 73
  film on sulfuric and hydrochloric acid wins award, Sept. 11
  plant operator, Nov. 7, 11
Transducers, pressure, Nov. 70
Transmitter and transducers, pressure, Nov. 70
Trays, prediction of entrainment flooding, Sept. 63
Tubular Exchanger Manufacturers Association Standards, reviewed, Mar. 16
Tufts Univ., environmental activities at, May 30
Tuning, internal model control, for controllers, Oct. 33
Turbines
  hydraulic, numerical simulation of flow in, Aug. 35
  Rushton, Feb. 61
Turbomachinery consortium supported by 17 sponsors, Mar. 72

We don't mail millions of these every year for our health.

We mail them for yours.

Something to consider when you receive your Christmas Seals® in the mail.

When you support the Christmas Seal Campaign,® you're not only helping to find cures for lung disease, but helping to find ways of preventing it as well.

So support the American Lung Association and use Christmas Seals.® It's a matter of life and breath.® Who knows, maybe even your own.

AMERICAN LUNG ASSOCIATION®
The Christmas Seal People®

It's a matter of life and breath®
